

A simpler first storefront for Georgian handmade creators.

LIVE PRODUCT: <https://musa-front.pages.dev/>

PROBLEM

Aspiring and early-stage Georgian handmade creators delay selling because starting feels intimidating, or rely on scattered social-media DMs and lose track of orders. Seven of ten interviews validated both aspiring-seller and early-seller pain.

SOLUTION

Musa lets creators create a studio, publish structured product listings, and appear in a public marketplace feed - turning handmade items into shareable storefronts instead of scattered DMs.
