Gvantsa Nozadze
Tamar Vatcharadze

Aspiring and early-stage Georgian handmade creators either delay selling because starting feels scary, or start through DMs and lose track of orders

7/10

interviews validated
aspiring sellers

5/5

pain intensity: fear to start

7/10

interviews validated early
sellers

"I feel like I need everything to be perfect before I start."

DA

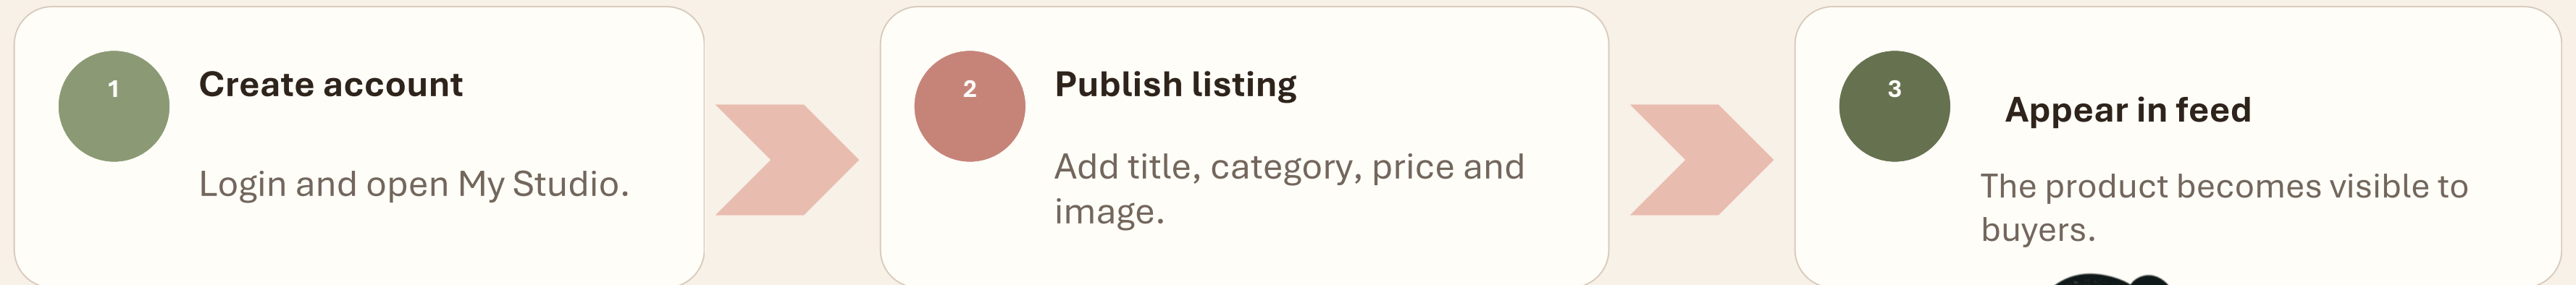

*"Should I separate them into pages, categories, collections?
Instagram doesn't even support that kinda things so it feels like too
much trouble and I just stop."*

Nita

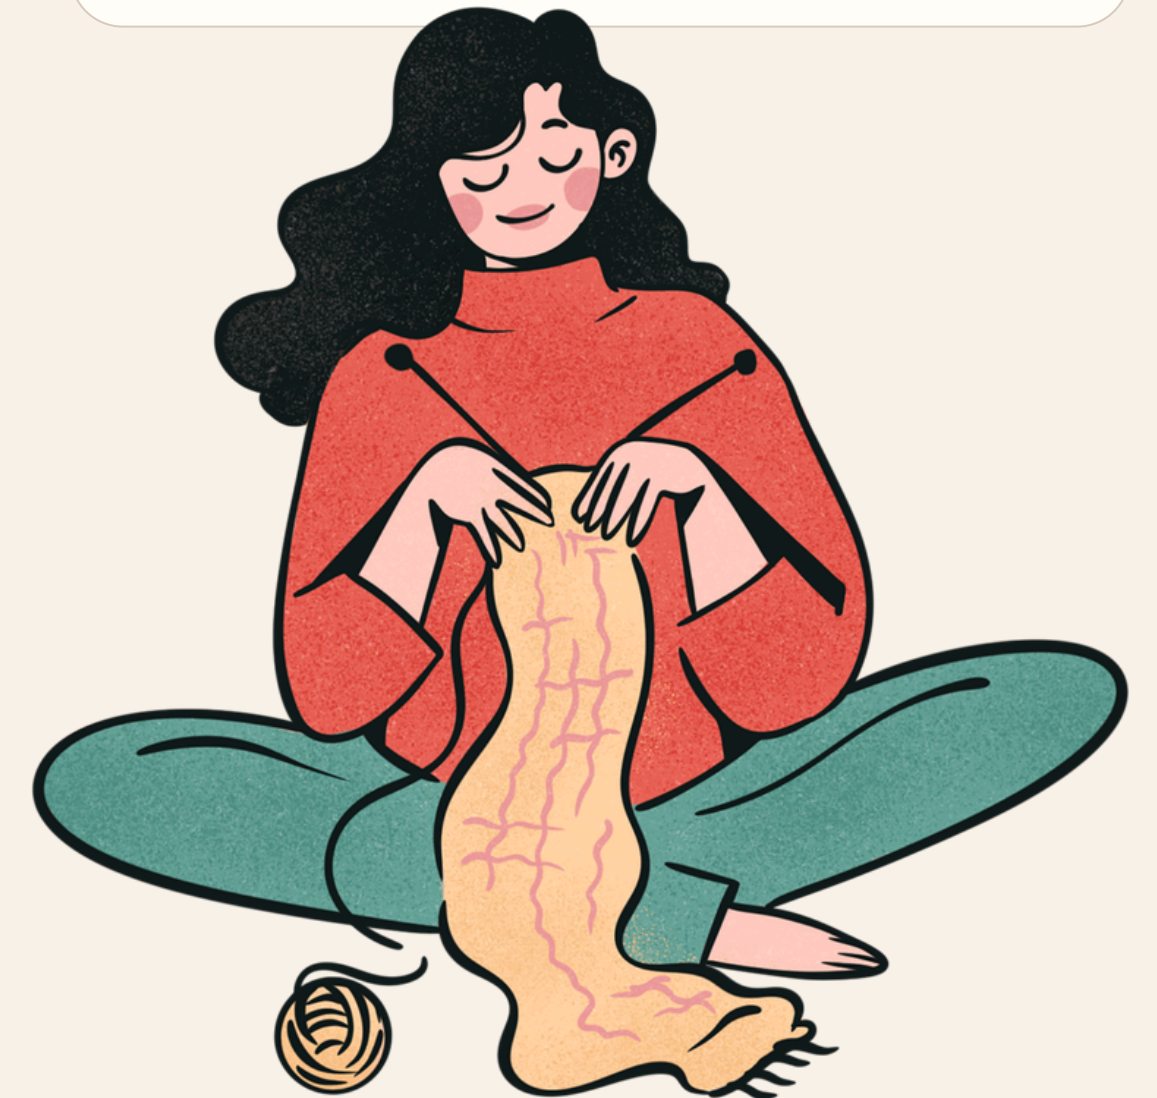

Current workarounds - Instagram, Facebook groups and pages, manual notes - fail because they lack structure for beginner sellers.

Musa makes the first selling step feel simple

Core Sprint 1 request: account creation + product listing + public marketplace feed.

Musa helps aspiring and early-stage Georgian handmade creators turn a handmade item into a public product listing, so selling starts with structure instead of scattered DMs

Discovery moved to social content, Selling still has no structure.

In 2025, Georgia had around 3 million social media user identities, equal to 78.8% of the population, which means handmade discovery already happens online, but beginner sellers still organize products manually through social profiles and posts.

Before Musa

Instagram/TikTok/Facebook post → mixed product feed → confused customer → seller loses motivation

With Musa

Create listing > publish product > share link > manage the sale clearly

Musa does not replace social media. It gives creators a structured product page to share from social media.

Bottom-up market size from creator activity

Assumption: average item price = 25 GEL, average active creator sells 4 items/month, Musa commission = 8%.

Positioning: this is not the global e-commerce market. It is a Georgian handmade creator wedge that can expand category by category.

SOM

48,000 GEL/year

500 creators x 4 sales/mo x 25
GEL x 8% x 12

SAM

480,000 GEL/year

5,000 Georgian craft/social sellers
x same monetization

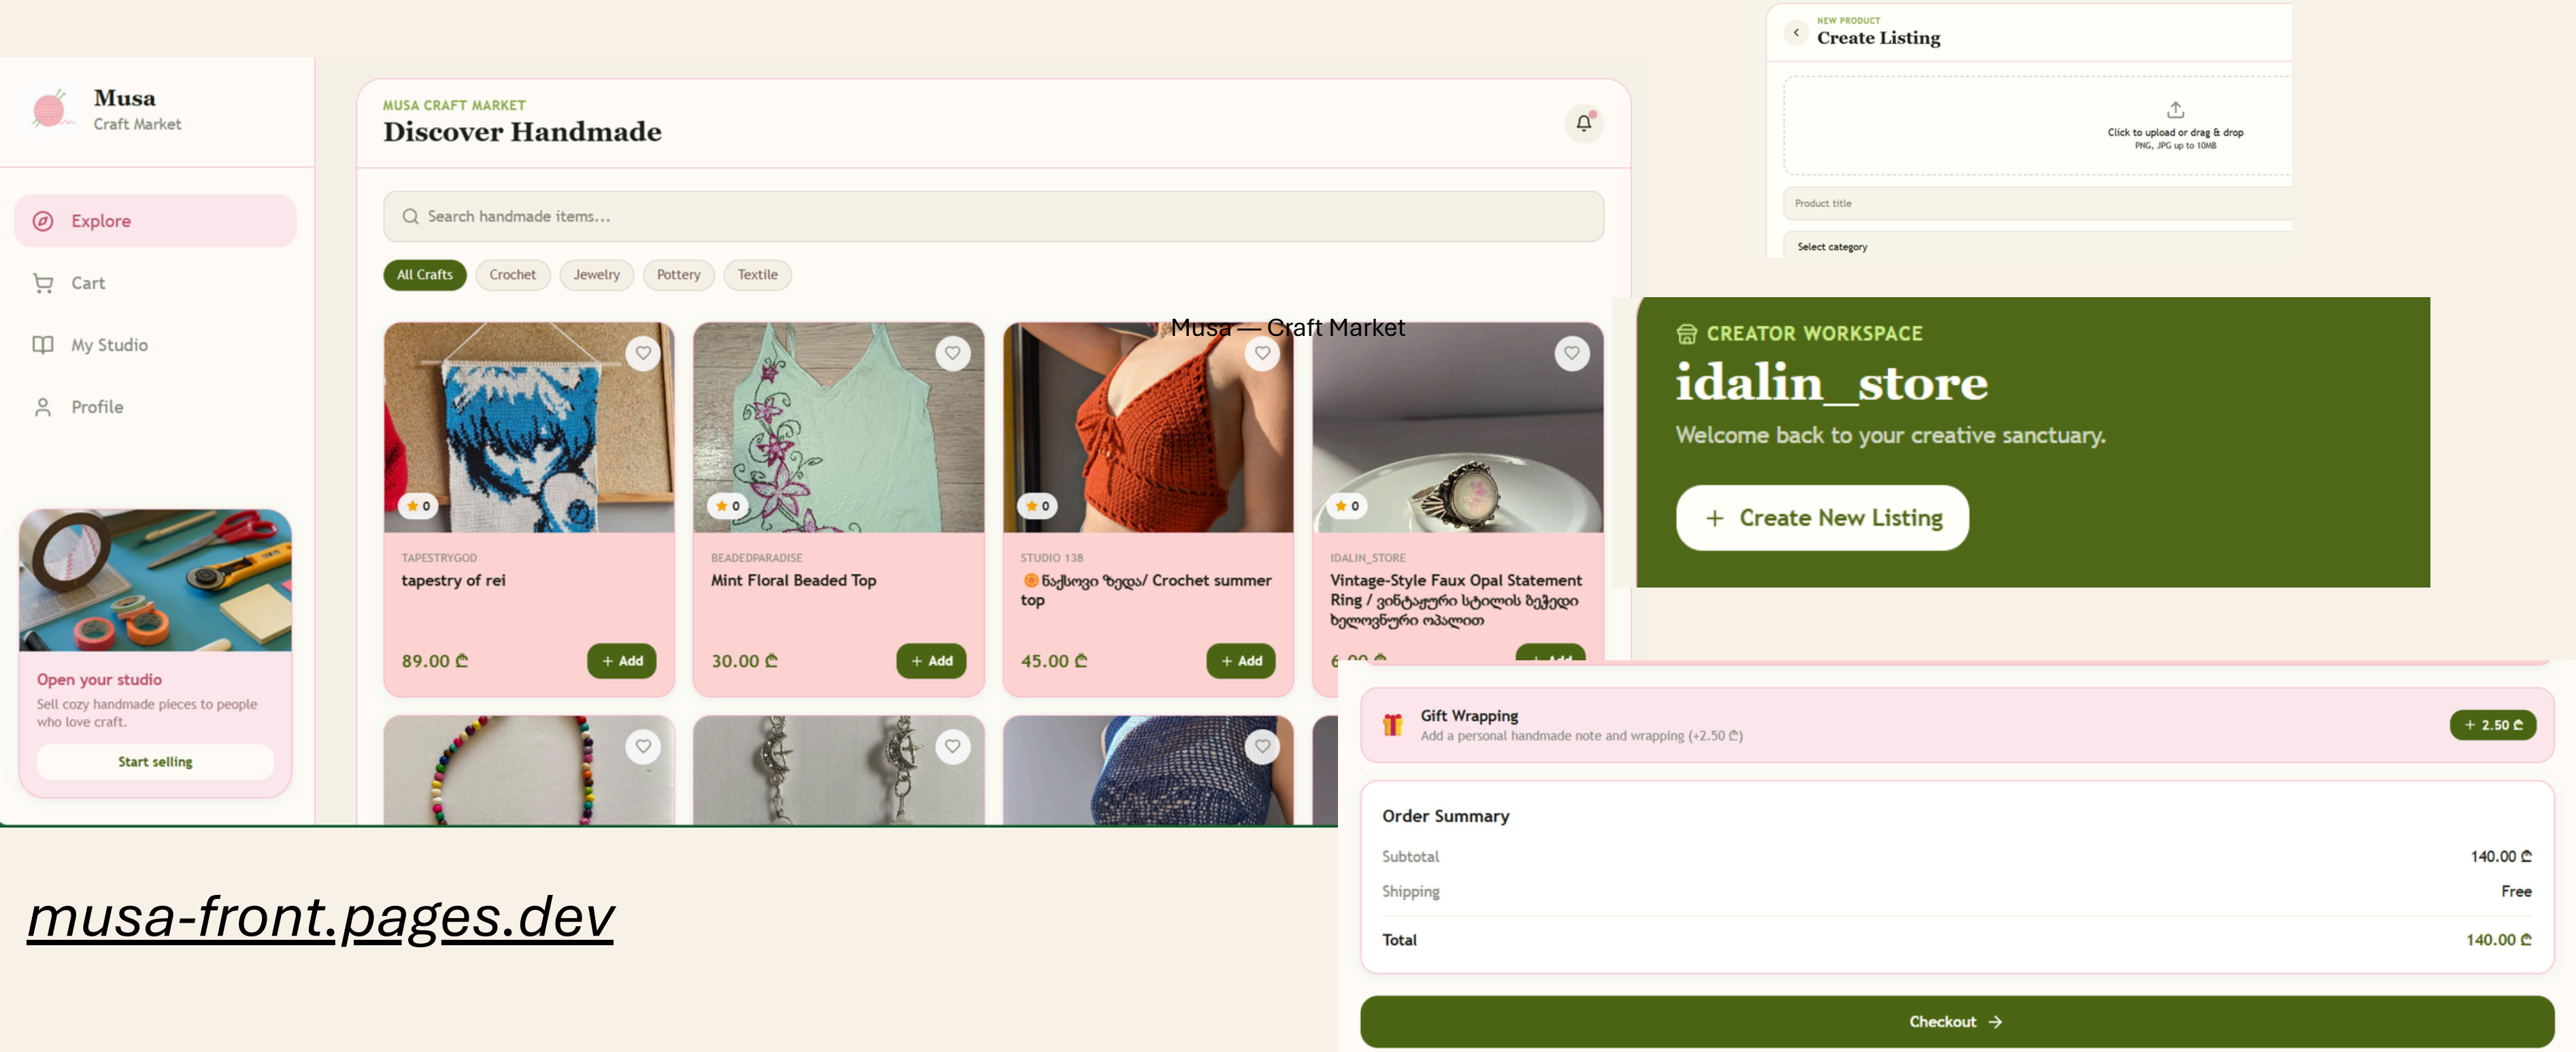

TAM

4.8M GEL/year

50,000 regional
handmade/social sellers x same
model

The live product proving the full marketplace flow

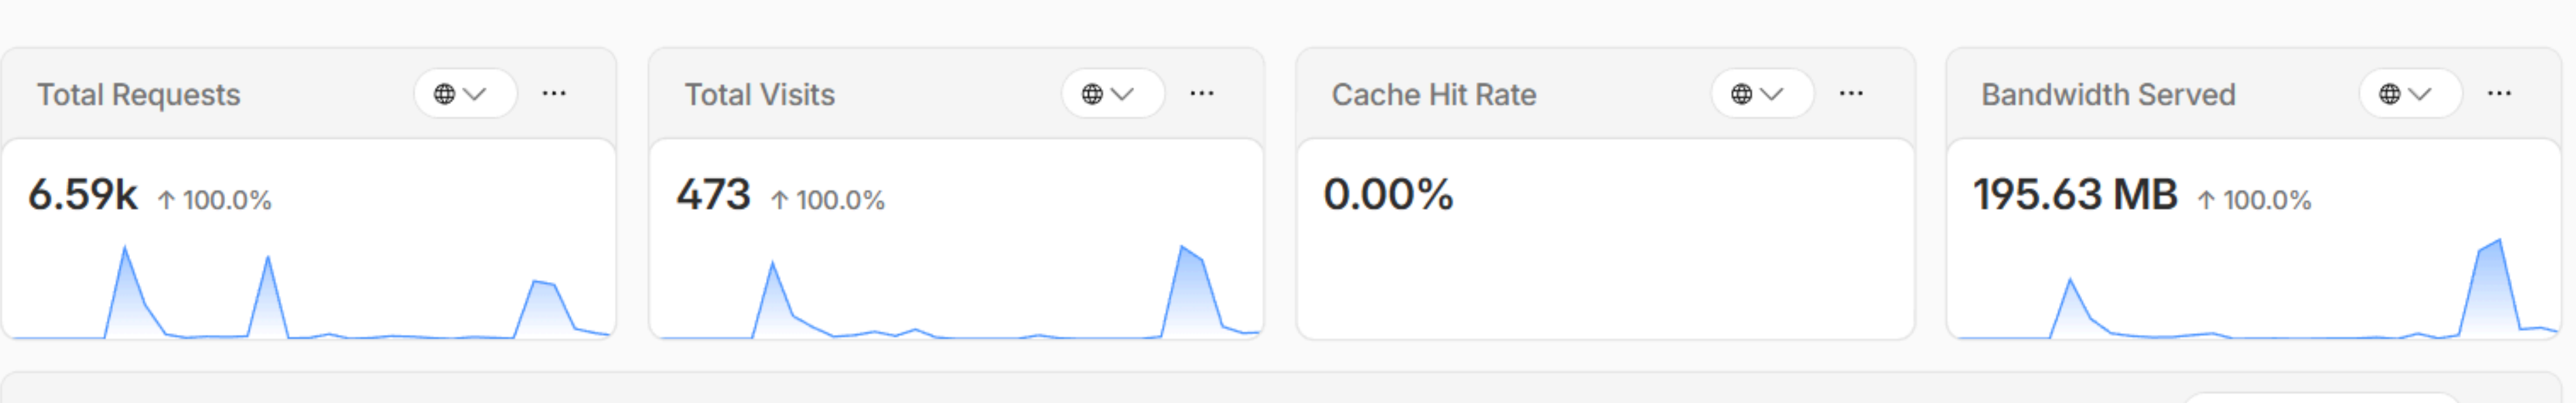

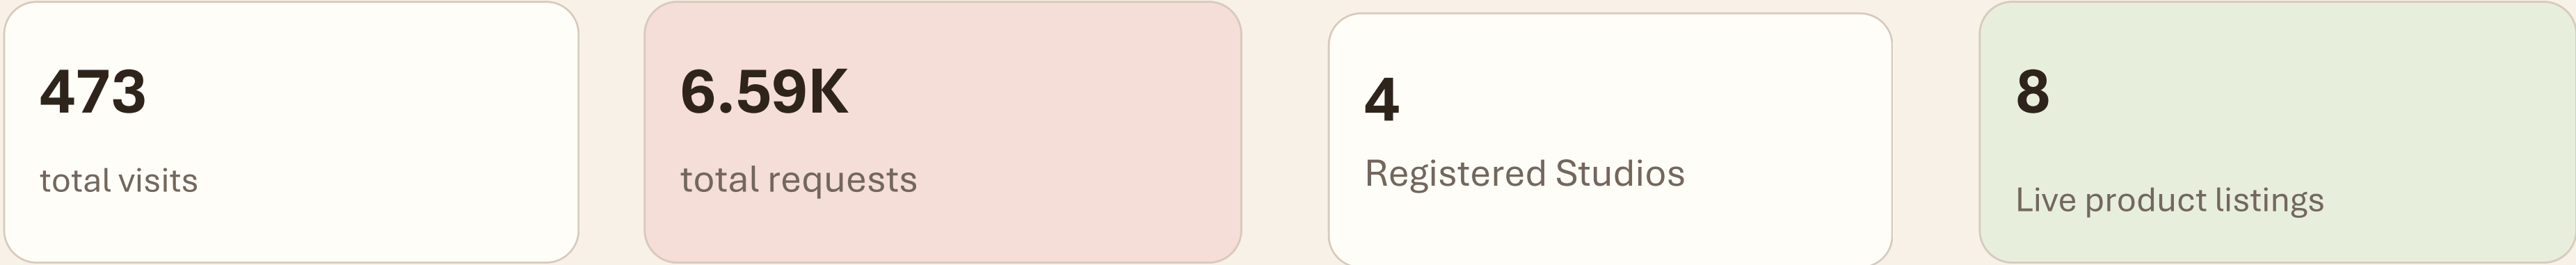

Musa is live today with account creation, studio creation, product listing creation, and a public marketplace feed

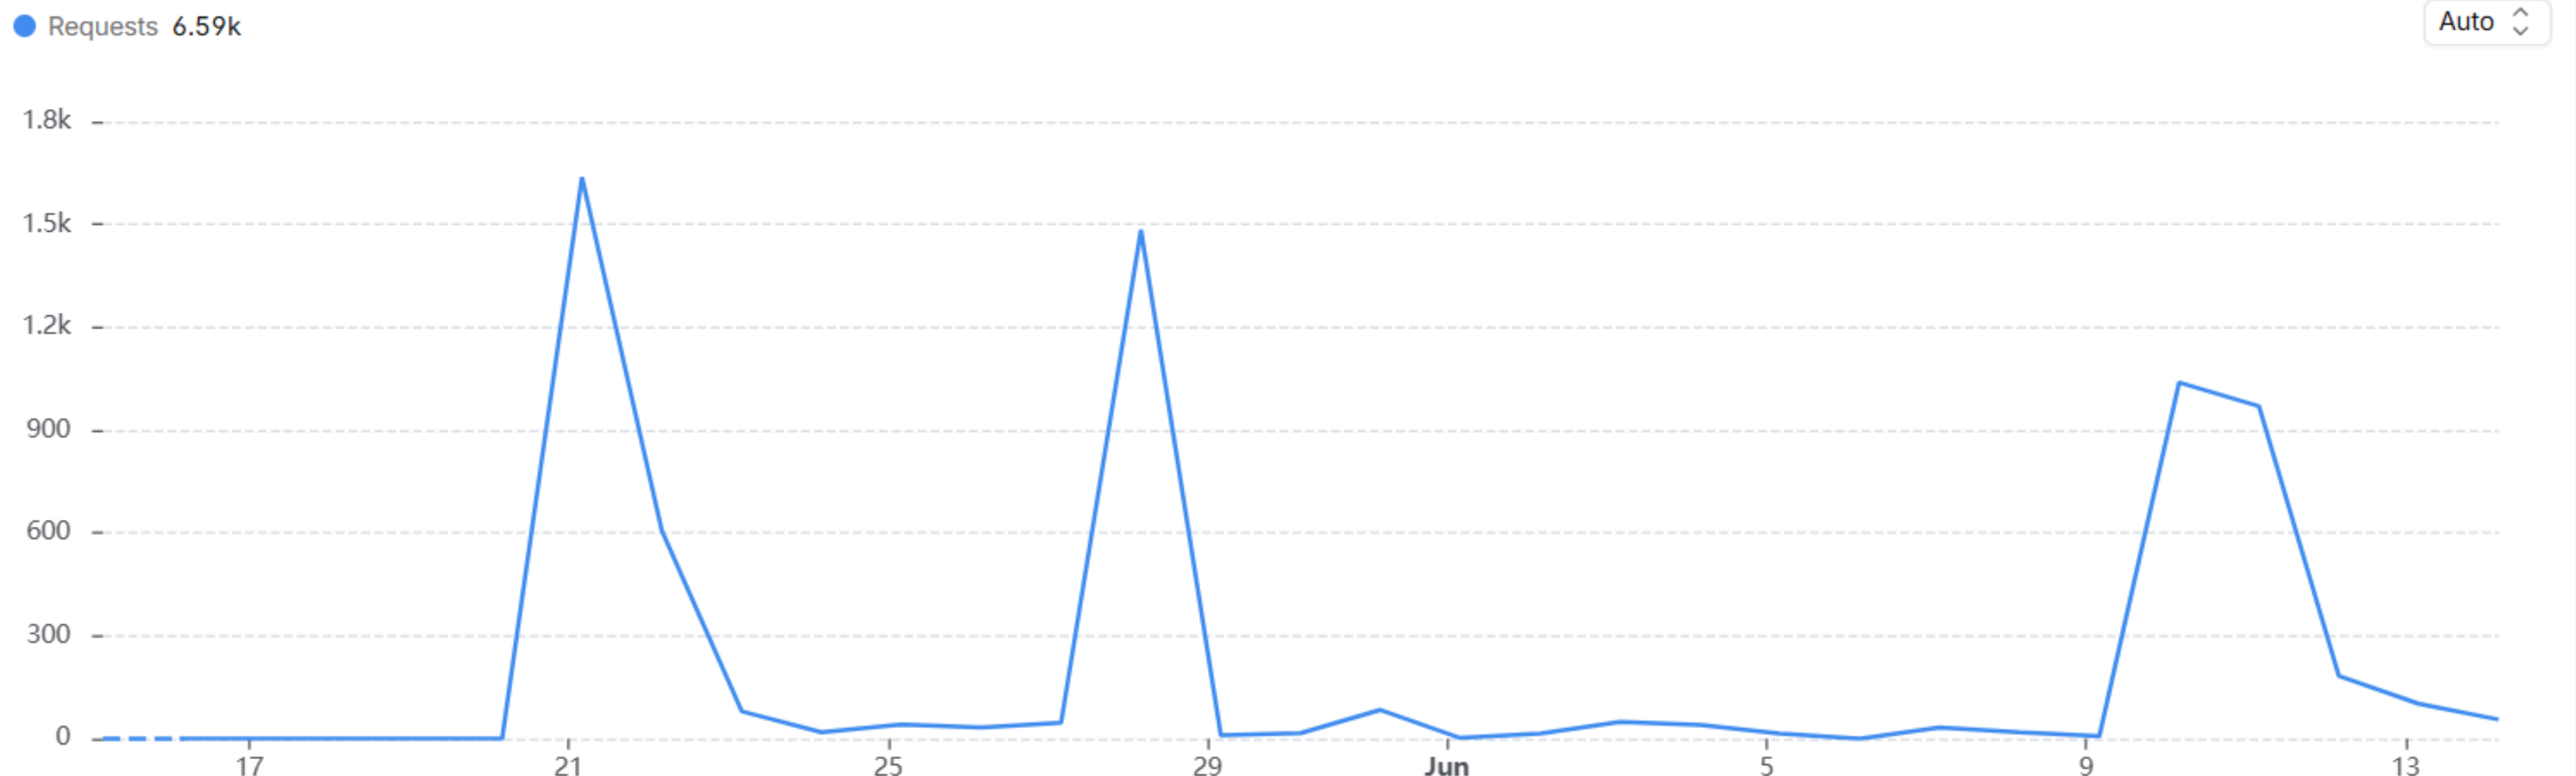

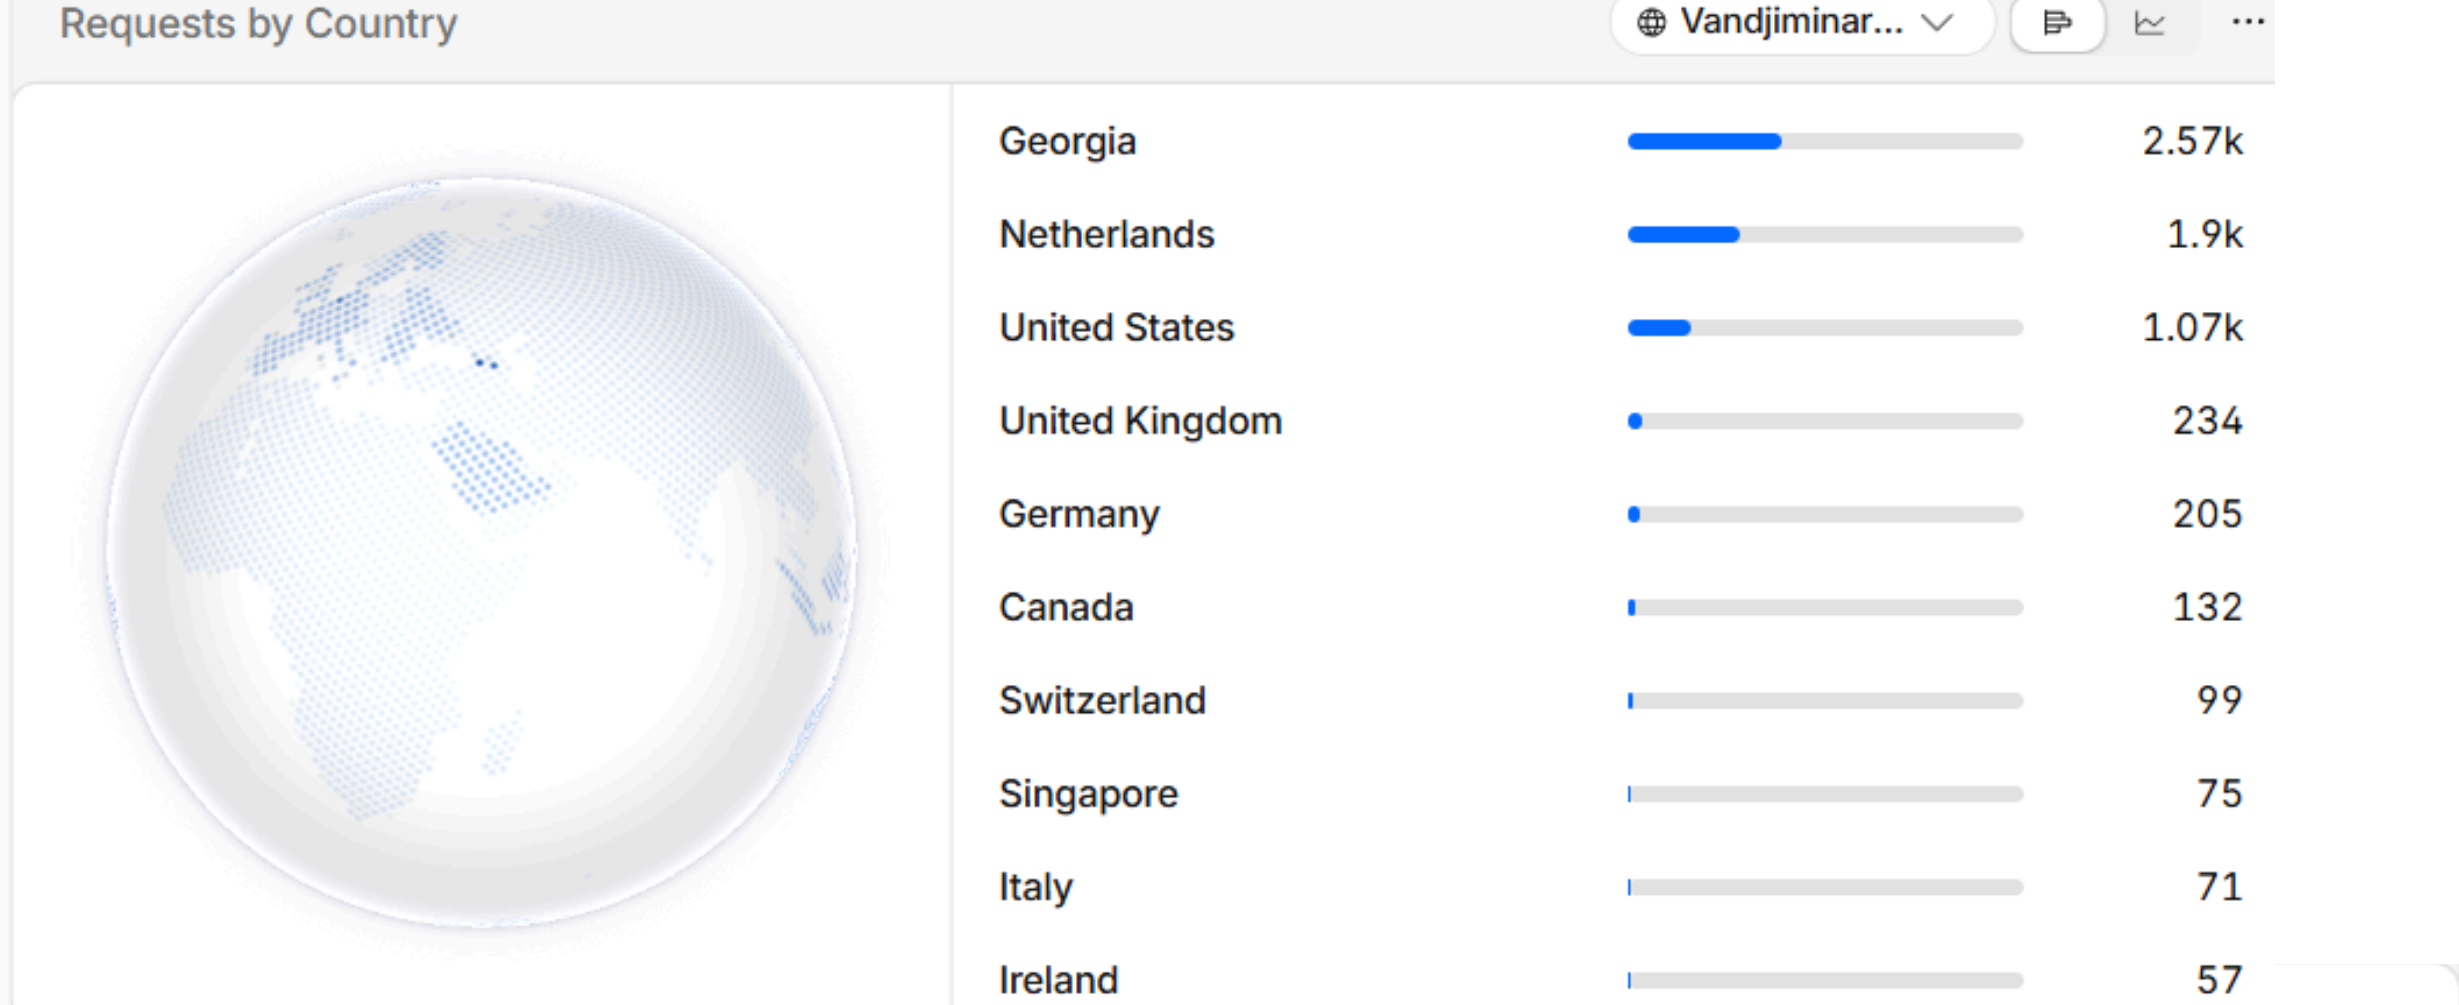

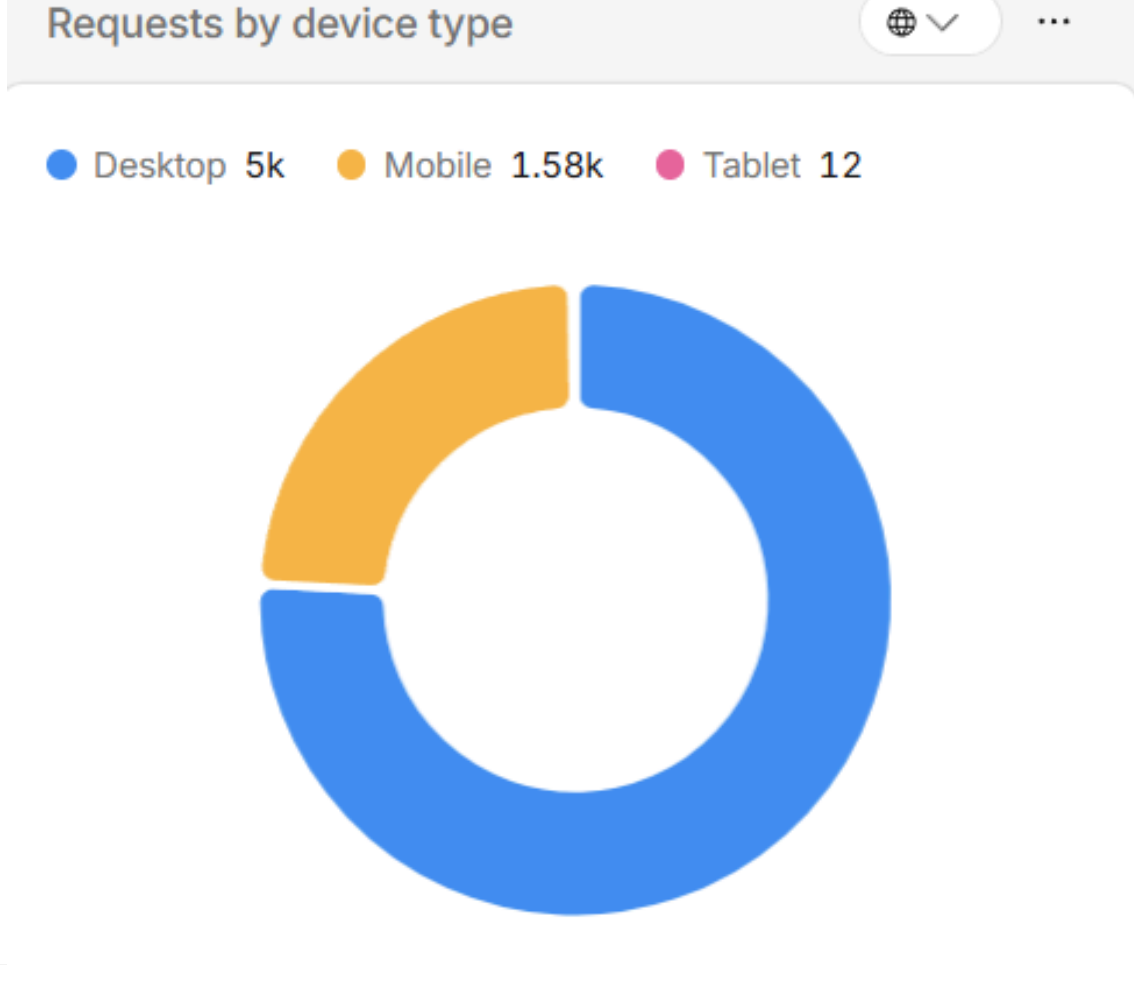

musa-front.pages.dev

Traction

live traffic and supply are already visible

Current traction shows early discovery and product availability. the next milestone is tracking creator activation and completed checkout.

Musa earns when creators sell

Free to join and list. 8% commission on completed sales.

- 25 GEL average item price
- 8% platform commission
- 2 GEL revenue per sale
- 4 sales / active creator / month

\$18.48

LTV

88%

gross margin

7 mo

average lifetime

Channel economics

			Payback period
Organic	\$6.67 CAC	2.77:1	2.5 months
Craft outreach	\$25.50 CAC	0.72:1	9.7 months
Viral share	\$3.33 CAC	5.55:1	1.3 months

Checkout is not live yet, so these are model economics from unit-economics.md, not observed revenue.

First channel: direct creator outreach through local craft communities

First 500 creators will come from named communities and direct outreach, not broad paid ads.

Instagram handmade- page DM sprint

24-month target: 180
creators

Craft fair QR outreach

24-month target: 70
creators

University notice boards + QR flyers

24-month target: 70
creators

“Share your Musa listing” referral loop

24-month target: 100
creators

DM / QR / WhatsApp → signup → create studio → publish listing → share Musa link

60% creator-facing time: organic content.
**40% creator-facing time: craft fair + university
outreach.**

**Why not paid ads? No budget, no conversion
data yet and paid search is dominated by
established platforms.**

-
-
-
structured than DMs. More local

Competition matrix + honest moat

Competitor	Start	Local	List	Orders	Handmade	Effort	Trust
Instagram DMs	High	Med	Low	Low	Med	Med	Low
Facebook Mkt.	Med	Med	Med	Low	Med	Med	Med
Etsy	Med	Low	High	High	High	Med	High
Shopify	Low	Low	High	High	Med	Low	High
Wix	Low	Low	High	Med	Med	Low	Med
Forms/Sheets	Med	Med	Med	Med	Low	Med	Low
Musa	High	High	High	Med	High	High	Med

Moat today: weak. Moat we are building: community + catalogue. Helmer power: local two-sided network effects.

30,000 GEL to turn listings into real transactions

at 150,000 GEL pre-money
16.7% implied dilution

Use of funds:

14k

Product: order flow, seller dashboard, share cards

10k

Creator acquisition: content, fairs, QR materials

6k

Infrastructure: hosting, DB, monitoring, testing

Three milestones this funding enables:

1. Checkout live and first completed commission revenue.
2. 500 creator accounts and 1,500 published listings, 100 active listing sharers, by March 2027.
3. Analytics dashboard tracking visits, signup, studio creation, listing completion, and 7-day / 30-day retention.
